DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/02/09 has been entered.
2. This Office Action is responsive to Amendment filed 10/02/09. Claims 44, 47, 50-100 and 102 are currently pending.
3. The indicated allowability of claims 99, 100 and 102 is withdrawn in view of the newly discovered reference(s) to Cheng (US 6,164,407). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 102 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - In claim 102, line 2, the recitation of “a spiroid gear stage” constitutes a double inclusion since it was previously recited in claim 99, line 6.

Art Unit: 3655

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 99, 100 and 102 are rejected under 35 U.S.C. 102(b) as being anticipated by Cheng (US 6,164,407).

Cheng shows an axially offset, right-angle gear stage 60 for a compact drive 10, comprising a central housing part 52, each drive component (54, 56, 32) surrounded by the central housing part 52 and at least one housing cover 22 of a respective drive component 32 to form a specific housing (52, 22); wherein the gear stage 60 is arranged as a spiroid gear stage (see col. 3, lines 22-23); wherein the right-angle gear stage includes a wheel 54 and a pinion 56.

Allowable Subject Matter

8. Claims 44, 47, and 50-98 are allowed.

Response to Arguments

9. Applicant's arguments filed 10/02/09, with respect to claims 44, 47 and 50, have been fully considered and are persuasive. The rejection of claims 44, 47 and 50 has been withdrawn.

Cited Prior Art

Art Unit: 3655

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (see the attached form PTO-892).

Communication

11. Submission of your response by facsimile transmission is encouraged. The fax phone numbers for the organization where this application or proceeding is assigned are **(571) 273-8300**. Recognizing the fact that reducing cycle time in the processing and examination of patent applications will effectively increase a patent's term, it is to your benefit to submit responses by facsimile transmission whenever permissible. Such submission will place the response directly in our examining group's hands and will eliminate Post Office processing and delivery time as well as the PTO's mail room processing and delivery time. For a complete list of correspondence not permitted by facsimile transmission, see M.P.E.P. 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a deposit account, can be submitted by facsimile transmission. Responses requiring a fee which applicant is paying by check should not be submitting by facsimile transmission separately from the check. Responses submitted by facsimile transmission should include a Certificate of Transmission (M.P.E.P. 512). The following is an example of the format the certification might take:

I hereby certify that this correspondence is being facsimile transmitted to
the Patent and Trademark Office on _____

(Date)

Typed or printed name of person signing this certificate:

(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the original should be retained as evidence of authenticity (37 CFR 1.4 and M.P.E.P. 502.02). Please do not separately mail the original or another copy unless required by the Patent and Trademark Office. Submission of the original response or a follow-up copy of the response after your response has been transmitted by facsimile will only cause further unnecessary delays in the processing of your application; duplicate responses where fees are charged to a deposit account may result in those fees being charged twice.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HA D. HO whose telephone number is **571-272-7091**. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Le can be reached on **571-272-7095**.
